

Weather trends in different cities

by Parren Chen, INFO 474 WI22

From the visualization, we could tell that in New York city, Seattle and Houston, there are generally more sunny days than rainy days. Ho higher temperature than the other 2 cities, while New York City is really cold in winter. Seattle is more of in between, which makes Seattl in summer and warmer (than New York City) in winter.

current city: Seattle, WA
